Priory School Association
Registration Form

Dear Parents,

The Priory School Association is a parental support and fundraising organisation which meets at regular intervals to arrange events such as the Summer Fayre and Christmas Fayre.

The aim of the PSA, from funds raised, is to purchase general items or equipment that may benefit all the pupils of Priory School, such as the sports equipment or classroom TVs; and to fund special annual costs such as the Christmas lunch and the Easter Egg Hunt. The PSA also supports events such as Summer Showcase, Sports days etc, often with catering and refreshments.

All of our parents are members of the PSA and are welcome to attend the meetings which are publicised in the weekly newsletter.

Please complete the form below and return it to the office upon registration.

Thank you.

Yours sincerely,

Cassie Dunford-Simpkins

Dear Parent/Guardian,

Responsible Use of the Internet

As part of Computer Science and other lessons the school gives all students access to the internet. It is important to ensure their safety is protected at all times in relation to access to online materials, so we have taken the following steps to achieve this.

Our Internet access is supplied by Indigo/Elite and we run the 'Securly' web filtering system that restricts access to sites containing inappropriate content.

All our screens are in public view and there is relevant supervision.

We also have very clear rules which the students are required to follow. These are to be found on the attached sheet.

Please look through these rules; discuss them with your child(ren); sign the form if you are happy with these rules, and then please return the signed form to school.

We are unable to assign internet access until we have received your signed agreement.

The full policy for internet access is available on our website,
www.prioryschool.org.uk.

Thank you for your support.

Yours faithfully,

E. Dale

Computer Science Department

Priory School Student Internet & Social Media Agreement

- All students are expected to read and accept the Internet Agreement.
- At any time, we expect all students to be responsible for their own behaviour on the web, just as they are anywhere else in school. This includes materials they choose to access, and language they use.
- Students using the web are expected not to seek out any inappropriate materials. The definition of inappropriate is at the discretion of the School but automatically includes any material of a violent, prejudicial, derogatory or sexual nature. Should any students encounter any inappropriate material accidentally, they are required to report it immediately to a teacher, so that further access can be blocked.
- **Students are expected to keep to the school rules online, which can only be for the purposes of study. Any other use is forbidden.**
- **All unauthorised use of mobile phones and/or social media in school time is strictly forbidden.**
- **All mobile phones MUST be handed in on arrival to school.**
- Students must not try to circumvent the security measures, for example, trying to break the blocks.
- Students must not share or encourage anyone else to share their network password or access other people's files.
- Computers should only be used for schoolwork and homework unless permission has been granted otherwise.
- No program files may be downloaded to the computer from the web. This is to prevent corruption of data and avoid viruses.
- Memory Sticks must be checked for viruses before used on the school systems.
- **Personal printing is not allowed on our network including any homework. Any homework sent in for printing at school will be returned.**
- Any portable device brought into School that requires connection to our systems will need to have full Internet security already loaded. The device must be surrendered to the Computer Science teacher with full admin rights so it can be inspected. It can take up to 7 days to complete the checks and add the computer to our network.
- **Students are still bound to the internet agreement as laid out in the Use of Internet Policy when using their own equipment.**
- No personal information such as phone numbers and addresses should be given out and no arrangements to meet someone made unless this is part of an approved school project.
- Any use of the internet to target or identify any person to their detriment, e.g. cyber-bullying, posting pictures, is a serious disciplinary offence and may merit immediate expulsion.
- Photos/videos of students may be used on the School website/Facebook page/YouTube, for advertising purposes or for general display. This signed agreement will be used as permission; if you would prefer this not to happen then a signed letter must be handed to the School Office.
- Students consistently choosing not to comply with these expectations will be warned, and subsequently, may be denied access to the web. They will also come under the general discipline procedures of the School which comprise an escalating set of measures, including a letter to parents and withdrawal of privileges.

I have read through this agreement with my child(ren) and agree to these safety restrictions.
